

PH360 is built to pass your security review.

If a colleague sent you this: PH360 is a purpose-built AI platform for public health, from F&T Labs.

SOC 2 Type II

Independently audited; report available on request.

HIPAA-Compliant

BAA downloadable from our site.

Tenant-isolated

US data residency. AWS-hosted, TLS 1.3, AES-256, SSO + MFA.

Your data is yours

Never used to train models. No general model access.

Full audit logging

Built for FOIA and sunshine-law requests. Every interaction retained.

Trusted Sources

Source citations on every output. Guardrails scoped to public health.
